

Kindergarten High Frequency Words

Your child will learn the following high frequency words in Kindergarten. High frequency words are words that are used many times in our language. These are words that the children recognize immediately without using letter/sound association (sounding out). High frequency words with a heart are called "heart words" - they do not follow the rules of the English language. The children will be learning these words throughout the many activities in class, but you reinforcing and practicing at home is vital to your child's education.

can	we	the 	like	a	see
