

Program & Service Updates

Throughout the last few weeks, Laurel House has altered our operations to ensure that the services and resources we offer are still available for our clients who are needing them now.

How are services being offered now?

Counseling

We continue offering individual and group counseling services using Telehealth via phone/text and video conferencing technology. Clients can be connected to the counseling program by calling 1-800-642-3150.

DART & Legal Advocacy

The Domestic Abuse Response Team (DART) is working remotely and continuing to answer calls 24/7 from law enforcement, medical personnel, and community members whenever anyone experiencing domestic violence is in crisis. Advocates provide safety planning, PFA assistance, legal advocacy, emergency hotel stay assistance, and more. Contact DART at **215-852-9826**. Our in-house Attorney and Paralegal are still having phone consultations with clients as well.

Emergency Shelter & Transitional Housing

Laurel House staff members continue to support the families in our Shelter and Transitional Housing Program. As other families need a safe haven during this extra-challenging time, we are assisting them in making other arrangements for shelter.
