

Notification and Communication

On a Flexible Instruction Day (FID), students and families will be informed of the FID through the District's mass notification system, similar to how school closings and delays are currently announced. Notifications will be distributed via phone, email, text messages, and will be posted on the District's Web site. Teachers will be available during school hours via email and phone. Students completing online or offline assignments will submit their completed assignments on the FID or the next school day immediately following the FID.
